

AgGuard[®] Select[™]

Rest easy knowing unpredictable repair risks are on us. Ag Guard Select covers defects in workmanship and materials, helping you keep your operation moving without costly downtime.

Smart, Focused Coverage

(not “Bumper-to-Bumper” – and that’s the point)

- Built for owners who **maintain their machines** and follow OEM specs
- **Not insurance, not a warranty** — an extended service contract that complements your manufacturer coverage
- Not for pre-existing failures; repairs must be completed before coverage starts
- **Repairs what’s broken** — not a complete rebuild to new condition
- Flexibility to upgrade repairs, we pay for covered failure, you pay the difference

What’s Not Covered Exclusions (Owner responsibility)

The **owner is responsible for normal wear & tear**. The following are **not** covered:

- Emissions components (injectors covered for the first 3,000 hours)
- Wiring harnesses & other electronic components
- Adjustments, maintenance items, software updates
- Mileage, travel time, transportation, and field service costs
- Failures from misuse, abuse, or equipment modification
- Seal/gasket leaks (unless part of a covered repair)

What’s Covered Select Protection Includes:

- Core Engine
- Starter / Alternator / Radiator / Fan Drives
- Transmission (Mechanical / Hydrostatic)
- Front & Rear Axles
- Engine Electronic Controls (ECMs)
- Turbo / Water Pump / Regulator
- Injectors (< 3,000 hours)
- Driveline (except U/CV joints)
- PTO & Creeper (within castings)
- Hydraulic Pumps / Motors / Steel Lines
- Hydraulic Valves / Sensors / Cylinders
- Hydraulic Drive Components for Crop
- A/C System / Fuel Tank
- Auto Steer / Front Axle Suspension
- Cab Frame / ROPs / FOPs

This is a synopsis. See Terms & Conditions for complete details, limits, and exclusions.

Why Choose Ag Guard

- **25 years Proven Performance**
- First to offer third-party coverage for ag equipment
- A reputation for **innovation, integrity, and quality**
