

Extended Service Contracts Coverage Options

- **Powertrain**— Covers the internal components of the engine & drive train
- **Powertrain + Hydraulic**— Adds pumps and other hydraulic components
- **Platform**— Adds items like the starter, alternator, and A/C compressor

Equipment Types	Years Old	Hours
Tractors	Up to 15	5,500
Combines/Harvesters	Up to 15	4,000
Sprayers/Spreaders	Up to 15	4,000
Windrowers/Balers	Up to 15	4,000
Mowers/RTVs	Up to 10	4,000
Skid Loaders	Up to 10	5,500
Light Construction	Up to 10	5,500

Components Covered	Powertrain	Powertrain + Hydraulic	Platform
Core Engine (Except hang-on parts)	AG	AG	AG
Transmission (Mechanical / Hydrostatic)	AG	AG	AG
Front + Rear Axles	AG	AG	AG
Engine Electronic Controls (ECMs)	AG	AG	AG
Turbo / Water Pump / Regulator	AG	AG	AG
Injectors (Less than 2,000 hours)	AG	AG	AG
Driveline (Except U/CV joints)	AG	AG	AG
PTO + Creeper (Within Castings)	AG	AG	AG
Hydraulic Pumps / Motors / Steel Lines		AG	AG
Hydraulic Valves / Sensors / Cylinders		AG	AG
Hydraulic Drive Components for Crop		AG	AG
Starter / Alternator / Radiator / Fan Drives			AG
A/C System / Fuel Tank			AG
Auto Steer / Front Axle Suspension			AG
Cab Frame / ROPs / FOPs			AG

**This is a synopsis. See the Ag Guard extended service contract terms & conditions for exact details and exclusions.*

Trust in Experience — Ag Guard was the first to offer third-party coverage for agricultural equipment. For over 20 years, we have built an unmatched reputation for:

Integrity

Innovation

Quality

Extended Service Contracts

Professional grade coverage for your equipment: With **Ag Guard**, you can rest easy knowing the unpredictable risks are on us. Our plans are tailored to cover defects in workmanship and materials.

Ag Guard is Not Bumper-to-Bumper or Comprehensive Coverage

- **Ag Guard** is designed for business owners who maintain machines diligently and follow manufacturer specifications. *Only pay to cover the risks you cannot control.*
- **Ag Guard** coverage is **not** an insurance policy, and it is **not** a warranty. Manufacturer warranties provide comprehensive coverage, while **Ag Guard Extended Service Contracts** extend that coverage for many but not all aspects of the machine.
- **Ag Guard** cannot be sold to cover existing failures or pre-existing conditions. All repairs must be completed and paid for before a contract is issued.
- **Ag Guard** focuses on repairing what is broken rather than refurbishing or rebuilding to like-new condition.
- **The customer can capitalize on the opportunity** to approve work beyond what is covered by the service contract. For example, if we approve the repair of a failed piston, the customer could choose to replace all the pistons or use a rebuilt/reman engine instead. We would pay the amount covered to fix the failure, and they would pay the difference.

Ag Guard Coverage Excludes Certain Components

- The **owner is responsible for normal wear**. The following are **not** covered:
 - Emissions components (*Injectors covered for defects during first 2,000 hours*)
 - Wiring harnesses and electronic components
 - Adjustments and maintenance items
 - Software updates
 - Mileage, driving time, transportation, and field service costs
 - Failures resulting from misuse, abuse, or equipment modification
- **Leaks from seals and gaskets** are considered maintenance and are only covered if required to repair a covered failure.
